

Kathy Poetker

Kathy Poetker has over 13 years experience in environmental auditing and consulting. She has gained extensive experience conducting environmental management audits, compliance audits, and environmental assessments. Kathy has successfully managed and conducted audits and environmental assessments for a wide variety of industries including electricity distribution, independent power projects, manufacturing, and salmon aquaculture.

With ISO Metrix Inc., Kathy's responsibilities include independent site inspections, conducting audits and providing recommendations, reviewing permits, regulations, codes and guidelines, and auditing environmental management systems. Her work experience and strong communication skills enable her to work effectively with clients, contractors and technical personnel of varied backgrounds.
