

Mark Gage

Mark Gage is a Principal with ISO Metrix Inc., a business consulting firm based in Vancouver, British Columbia. Mark has a Bachelor of Science from the University of Victoria, and a Certificate in Management Excellence from the Sauder School of Business at the University of British Columbia

Prior to forming ISO Metrix Inc., Mark worked as a Senior Audit Manager with KPMG LLP, a global professional services and accounting firm.

Mark has worked as the Lead Auditor on hundreds of independent audits including audits against the requirements of national and international standards for Occupational Health and Safety, Environment and Sustainability.

Mark has experience delivering training including internal audit training, and has presented at international conferences on the topics of management system certification and health, safety, and environment risk management.

Mark currently focuses toward conducting objective and independent inspections, investigations, and audits against environmental and safety requirements, and in the subsequent development of effective process control measures.
